DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 23 January 2008 has been entered.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: prior art disclosed in PTO-892 and references searched by the examiner disclose estimating and removal of the fixed pattern noise. However, the applicant's invention discloses a feature, "an array of coefficients to determine the estimated fixed pattern noise, wherein the array of coefficients are based on actual fixed pattern noise measurements that are parametrically fitted over a plurality of temperature ranges, wherein said corrected digital image is generated based on a low estimated fixed pattern noise when a current frame of said raw digital image is less than a middle temperature intensity count, otherwise the corrected digital image is generated based on a high estimated fixed pattern noise," which is distinct with prior art and references cited by the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
